Society:

There's less and less time left! Apply for the EAS Competitive grant now!

The banner features a dark teal background with white and pink text and icons. On the left, the text reads "Competitive grants for EAS members 2024" in white, with "2024" in pink. Below this is the EAS logo, which consists of a stylized red and yellow circular graphic next to the letters "EAS". To the right, there are four pink rectangular boxes with white text and icons: a microscope icon next to "CALL FOR APPLICATIONS 2024"; a test tube rack icon next to "Supporting early-career research projects"; a calendar icon next to "APPLICATION DEADLINE: September 13, 2024"; and a person icon with a code symbol next to "FIND OUT MORE AND APPLY AT eas-society.org".

One of our Society's key goals is to ensure that research in atherosclerosis continues to advance for years to come. To achieve this, we strive to support and nurture talented young scientists in the field. For many years, EAS has fostered their careers through travel grants, fellowships, and specialized scientific programs.

This year, a call for applications for the EAS Competitive grant is open until September 13. Apply now to be considered!

**Please share this opportunity with your colleagues and encourage those who might benefit from it to apply.**

Read more about the criteria and submit your application here:

Society:

Nominate those who deserve recognition. The call for Anitschkow Prize 2025 nominations is now open!

# 2025 Anitschkow Prize

## Call for nominations

Deadline: October 14, 2024

The nomination period for **the prestigious Anitschkow Prize 2025** is now open and will run through October 14, 2024. This esteemed prize, presented annually by the EAS, honors outstanding researchers who have made significant contributions to the field of atherosclerosis and related metabolic disturbances.

### **Nomination criteria**

Eligible nominees should:

- be recognized for their groundbreaking research in atherosclerosis and related metabolic disturbances.
- have made outstanding novel contributions that have significantly impacted the discipline.
- maintain an excellent publication record in the field.
- be actively engaged in research.

### **How to nominate**

Nominations can be submitted by any full individual EAS member and must be supported by a peer. Each submission will be carefully evaluated by an independent review panel based on the criteria mentioned above.

Submit your nomination for the Anitschkow Prize 2025 today and seize this opportunity to honor a researcher whose work is advancing the field of atherosclerosis!

Education:

## New insights in the genetics of FH discussed by Prof. Mafalda Bourbon

The poster features a dark brown background with a pattern of concentric, overlapping circles in shades of gold and brown. The text is white and gold. At the top, it reads 'Open Lecture • September-October 2024'. Below that, in large gold letters, is 'New insights in the genetics of FH'. To the right is a circular portrait of Prof. Mafalda Bourbon. At the bottom left is the EAS logo, which consists of a stylized red and yellow circle next to the letters 'EAS'. At the bottom right, in white text, it says 'by Prof. Mafalda Bourbon', followed by her title: 'Coordinator of the R&D Unit & Head of the Cardiovascular Research Group at the Department of Health Promotion and Prevention of non-Communicable Diseases 92nd EAS Congress, 2024'.

**Mafalda Bourbon** is a senior researcher at the National Institute of Health in Portugal (INSA), where she serves as the coordinator of the R&D Unit and Head of the Cardiovascular Research Group within the Department of Health Promotion and Prevention of Non-Communicable Diseases.

As a leading researcher in the field of genetics of familial hypercholesterolemia (FH), her work has significantly enhanced the identification, functional characterization, and interpretation of variants found in patients with a clinical diagnosis of FH and other dyslipidemias.

In this lecture, she will explore the most recent advances in the genetic diagnosis of FH.

Our third EAS-LatAm webinar is in high demand! Join the record number of registrants this Thursday

# Triglyceride-rich lipoproteins as contributors to residual risk

Chair

Prof. Laura Schreier

Prof. Alberto Zambon

Prof. Pablo Corral

**Thursday, September 5**  
**18:00-19:00 CET**  
Free registration  
Language: English and Spanish

We've set a new record for EAS webinar attendance! **Our third EAS-LatAm webinar is in high demand**, and we invite you to join us for an in-depth discussion on the atherogenic role of triglyceride-rich lipoproteins (TRLs). We'll also explore the ongoing debate about whether mild or moderate increases in TRLs should be managed pharmacologically.

Thank you for your continued interest, and we look forward to your participation in this exciting webinar. We'll begin on Thursday at 18:00 CET. Whether you speak English or Spanish, this event will be tailored to suit you.

Outreach:

Help us collect 1 million+ signatures for cardiovascular health and save lives

Sign the first global  
petition to prioritize  
heart health.

#UseHeart #WorldHeartDay #HeartYes  
WORLDHEARTDAY.ORG

USE ♥ FOR  
ACTION

We call on all governments and decision-makers to put an action plan in place to defeat the world's biggest killer. This petition is for everyone who cares about better health and access to diagnosis, care, and disease prevention.

Cardiovascular disease (CVD) is the leading cause of death, claiming more than 20 million lives every year.

Act now and urge leaders to address CVD with a bold national action plan. Let's create a productive global community of healthier hearts, supported by smart investments and responsible policies.

To sign the petition, visit the main page of our website and scroll down to find the special widget. Share this initiative with your colleagues.

## EAS Calendar – September 2024

From insightful webinars to groundbreaking announcements, this section is your gateway to staying connected and up-to-date with the latest developments within the EAS Society.

- **September 2 - October 14**, Call for Anitschkow Prize 2025 nominations
- **September 5**, LatAm-EAS: Triglyceride-rich lipoproteins as contributors to residual risk
- **September 13**, EAS Competitive Grant: deadline for the applications
- **September 20**, EAS Advanced Course in Rare Lipid Disorders, Slovenia
- **September 27**, EAS Advanced Course in Rare Lipid Disorders, Greece
